

# OCCUPATIONAL HEALTH & SAFETY POLICY

## VISION

To be **SECOND TO NONE** among corporate subsidiaries in protecting our **HUMAN ASSET** as **HUMAN** matters for our future survival.

## MISSION

To support this mission, we will continually:

- **Comply with applicable local and corporate health and safety regulations including zero deviation plan and strive to protect our human asset against work related injuries, ill-health, diseases and incidents.**
- **Ensure participation of all employees in initiatives to improve the work place safety**
- **Ensure compliance of health & safety systems and practices by all contractors who work at our project sites.**
- **Improve coordination among different service providers in order to prevent any incident due to communication gap and deviation from established health & safety practices.**
- **Ensure protection of all visitors who visit our offices and mill area.**
- **Monitor and improve the performance of Occupational Health & Safety**
- **Ensure the protection of environment by using all available resources**
- **Adopting strategies to minimize the environmental impacts of business travel**
- **Using utilities in a responsible and economic way to minimize negative impacts on the environment**
